MESSAGE FROM THE MANAGMENT

Welcome to Al Rawabet! We are thrilled to have you join our network of like-minded businesses and individuals who share our goals and aspirations. At Al Rawabet, we pride ourselves on fostering a community of innovators, entrepreneurs, and industry leaders who are committed to driving growth and success.

Our team of experts is committed to supporting your success in today's fast-paced business world. We believe that by working together and sharing our knowledge and expertise, we can achieve great things and make a positive impact on the world around us.

We prioritize social and environmental responsibility and urge our network members to do the same. Businesses must play a crucial role in promoting sustainability and equity, and we're committed to contributing to positive change.

Let's work together to create a brighter future

OUR STORY

Al Rawabet is one of the largest and most prominent supplier of HVAC systems and is recognized as a leader in multiple regions. Our company serves the markets of Iraq, the Levant, and North Africa through our base in Iraq, which is complemented by our head office situated in the vibrant city of Erbil in the Kurdistan region. Additionally, our strong presence in the UAE where we operate under the name Cannelle Holdings caters to the needs of the Arab Gulf states and the wider MENA region.

Our offices and showrooms are located in major cities throughout Iraq, including Erbil, Sulaymaniyah, Baghdad, Karbala, and Mosul

Cannelle Holdings– UAE has a head office in Dubai (Jebel Ali Free Zone), showrooms in Al Quoz (Dubai) , and additional branches in Abu Dhabi, Sharjah, and the northern emirates. We also have very large warehousing facilities in Jebel Ali.

Al Rawabet and Cannelle with multiple warehousing facilities spread over Iraq and UAE are able to provide smooth supply and efficient distribution to projects across the region.

Successful partnerships

Our ability to distribute products over two decades has led to greater satisfaction among our clients across Iraq, spanning from the northern to southern regions. Moreover, we take pride in our partnership with Vision-Line, an engineering services provider joint venture that specializes in HVAC and supplies to leading air conditioning businesses and retail. Our team's synergy and extensive experience in mature markets, including UAE, Saudi Arabia, Iraq, and Egypt, give us a competitive edge and differentiate us from our competitors. Our goal is to collaborate with like-minded companies who share our aspirations.

RELIABLE DISTRIBUTOR

As the sole agent and distributor of the renowned IUSA Mexico and CLI brands for copper tubes, we also offer a range of high-quality products from esteemed brands such, Green Breeze, Vents and Dynair Ventilation Products, Easy Pre-Insulated Ducts, Alpha Pre-Insulated Ducts, Air Master Air Outlets and Dampers, Aerofoam and Geoflex insulation Products, Aeroduct Flexible Ducts and Connectors, NIBCO fittings and valves, and many more.

At Al Rawabet, we take immense pride in our commitment to offering only the best products to our customers. Our partnerships with these esteemed brands are a testament to our dedication to quality and reliability and our reputation as a leading distributor of HVAC products ensures that our customers have access to the most innovative and advanced solutions in the industry.

Our team of knowledgeable and experienced professionals is always ready to assist our clients, ensuring they receive the right products, at the right time, and at the right price.

VISION & VALUES

At Al Rawabet, we envision a future where we continue to lead the way in the HVAC industry across the MENA region and beyond. Our commitment to providing exceptional quality products and services and delivering unparalleled reliability and customer service is at the heart of everything we do. We aim to expand our offerings and be a one-stop-shop for all our client's requirements, while also expanding our presence in different countries.

Our values are based on passion, excellence, and dedication to providing the best possible solutions to our clients. We take pride in our partnerships with esteemed brands and are committed to delivering innovative and advanced solutions that meet the most stringent requirements. Our team of experienced professionals is dedicated to providing exceptional customer service.

We are driven by our passion for excellence, and we strive to maintain our position as a leader in the industry.

OUR PEOPLE

At our business, we believe that our people are the heart and soul of our success. Our team is made up of talented and dedicated individuals who are passionate about delivering the highest level of service to our clients. We value collaboration, innovation, and a strong work ethic, and we are committed to creating a culture of mutual respect and support.

Our team members come from diverse backgrounds and bring a wide range of skills and experience to the table. We encourage our employees to continually grow and develop their skills, and we provide ongoing training and support to help them achieve their goals.

At the core of our team is a shared sense of purpose and a commitment to excellence. We are dedicated to working together to achieve our common goals and to deliver the best possible outcomes for our clients. Our people are not just employees, they are valued members of our family, and we are proud to have them on board.

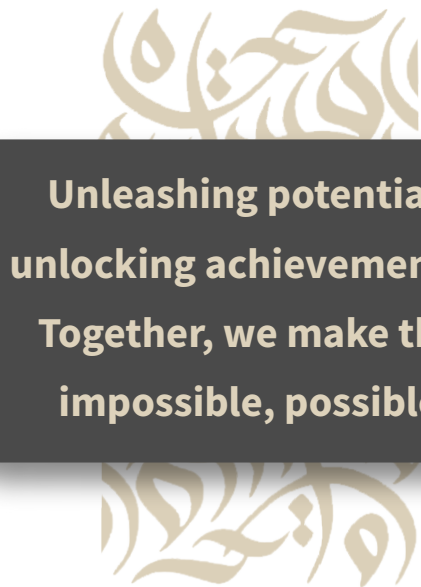

**Alone we may achieve,
but together we can
conquer - Teamwork
makes the dream work.**

COMPANY HIGHLIGHTS

Al Rawabet is a dynamic and innovative company that has achieved significant success in the HVAC industry. We have a proven track record of delivering high-quality products and services to our customers.

Over the years, we have worked hard to build a strong reputation for our brand. We are constantly looking for new ways to improve our products and services, and we are committed to staying ahead of the curve in our industry.

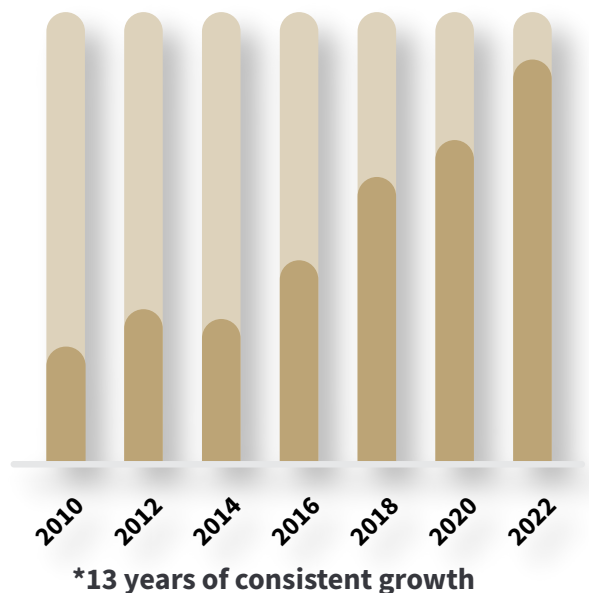

**Unleashing potential,
unlocking achievements -
Together, we make the
impossible, possible**

- **Imported over 250 containers (4250 Tons) of Copper Tubes**
- **Sold over 1000 tons of Freon Gas over the last 5 years**

- **Sold 1.5 million m2 of ducts and 600 cntrs of insulation in the last 5 years**

Yearly revenue growth in last 5 year

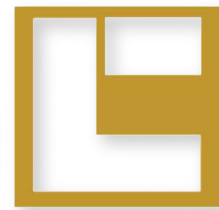

COPPER TUBES

For more than 68 years, the IUSA brand, one of the world's largest copper manufacturers and distributors has established the benchmark for excellence in the HVAC & Refrigeration Industry worldwide.

ACR

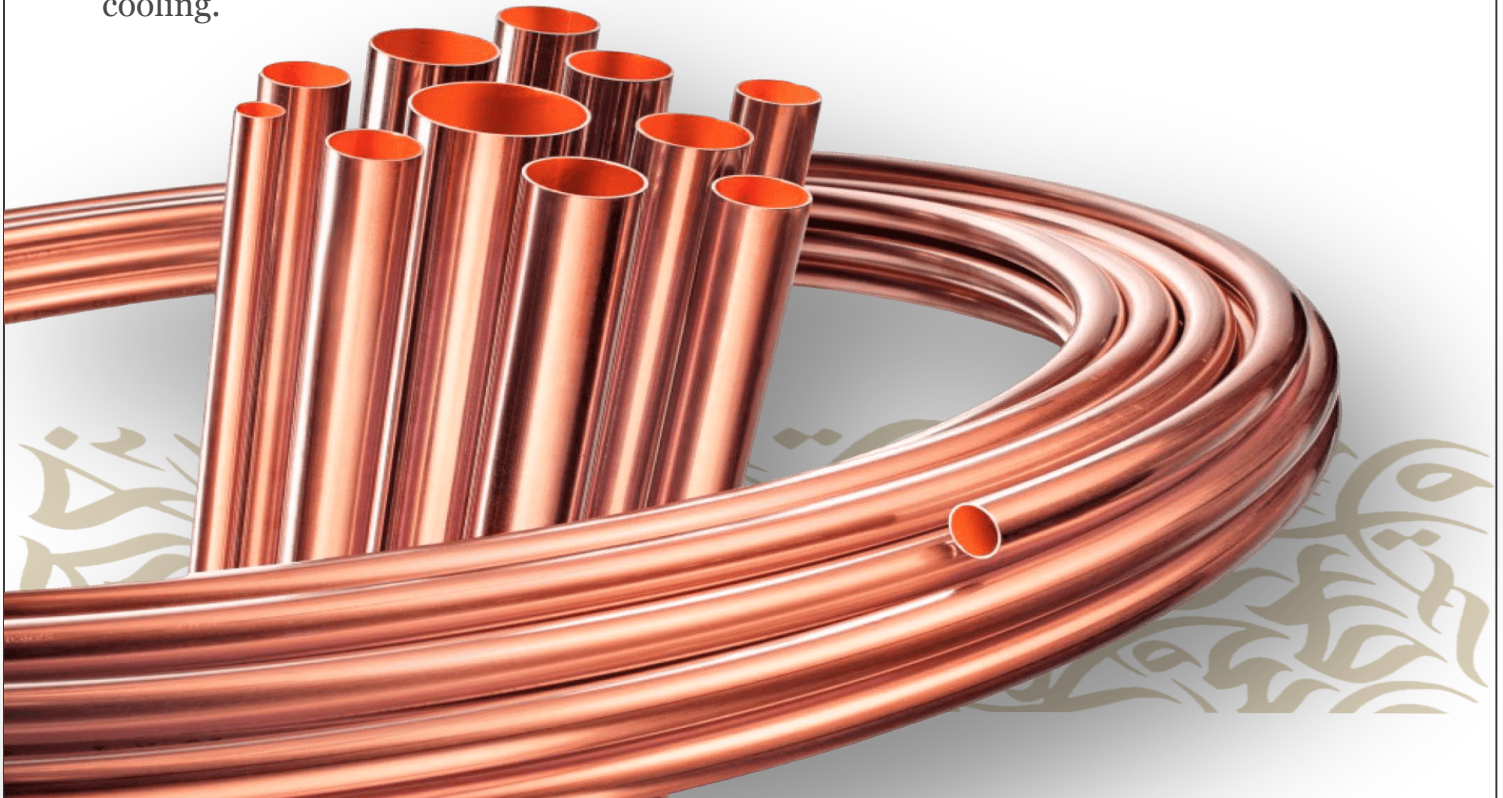

Oxy/Medical Gas

LPG / LNG

CAMBRIDGE-LEE INDUSTRIES, LLC

Al-Rawabet is honoured to be the sole distributor of the IUSA Cambridge Lee brand in Iraq. Our product offerings include ACR, Oxy/Medical Gas, and Refrigeration Copper Tubing, all of which are essential components for many applications. Our Refrigeration Copper Tubing is perfect for use in refrigeration systems, ensuring efficient and reliable cooling.

COPPER TUBES

We are also proud to offer copper tubing products from CLI, a leading manufacturer of copper Tubes in Southeast Asia and East Asia. CLI products are known for their high-quality materials and precise manufacturing.

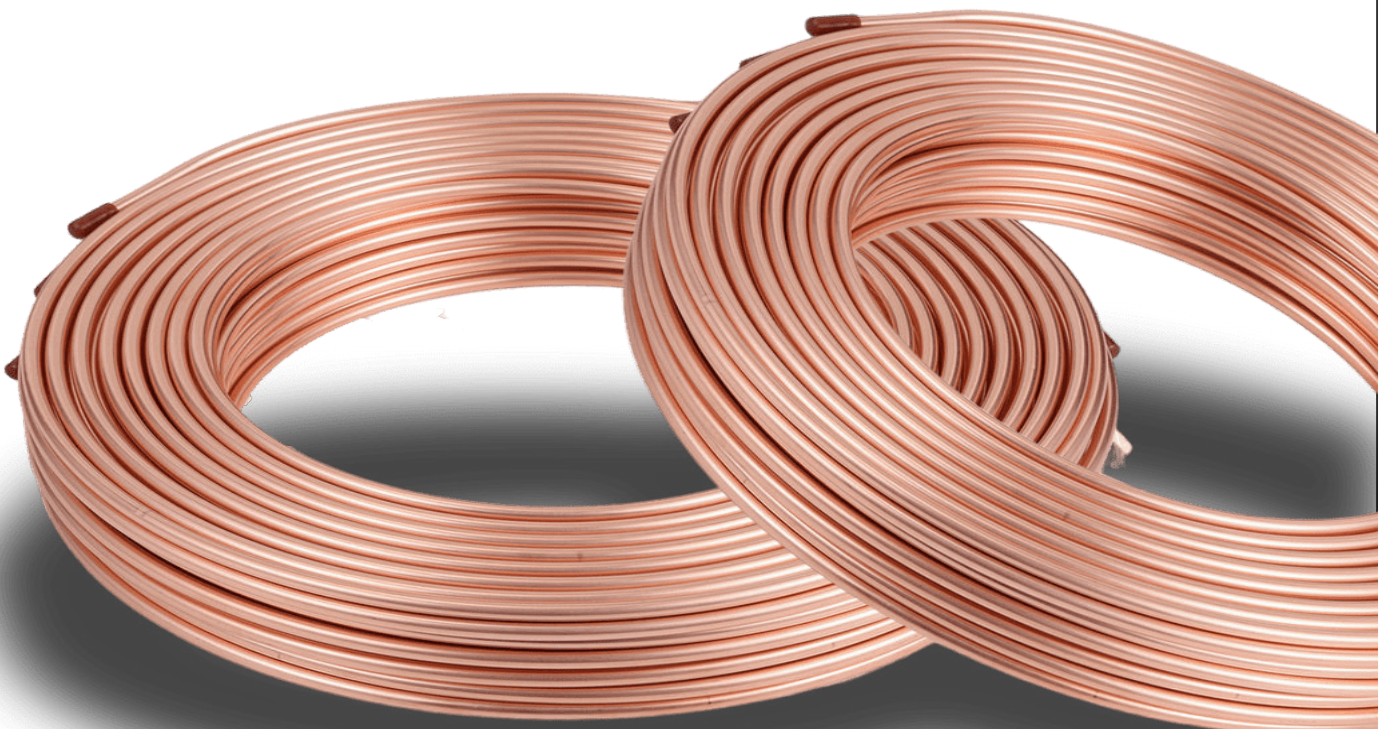

We uphold optimal inventory levels at our distribution centers to meet the demands of the local market promptly. Additionally, we facilitate the procurement of a full container load of mixed or singular sizes to any client operating in the Middle East and North Africa region.

ASTM B280-Standard Range

ECO Range

COPPER FITTINGS & VALVES

Whether you choose NIBCO or CLI Copper Fittings, they are both excellent options for refrigerant applications due to their exceptional reliability and innovative design.

NIBCO®

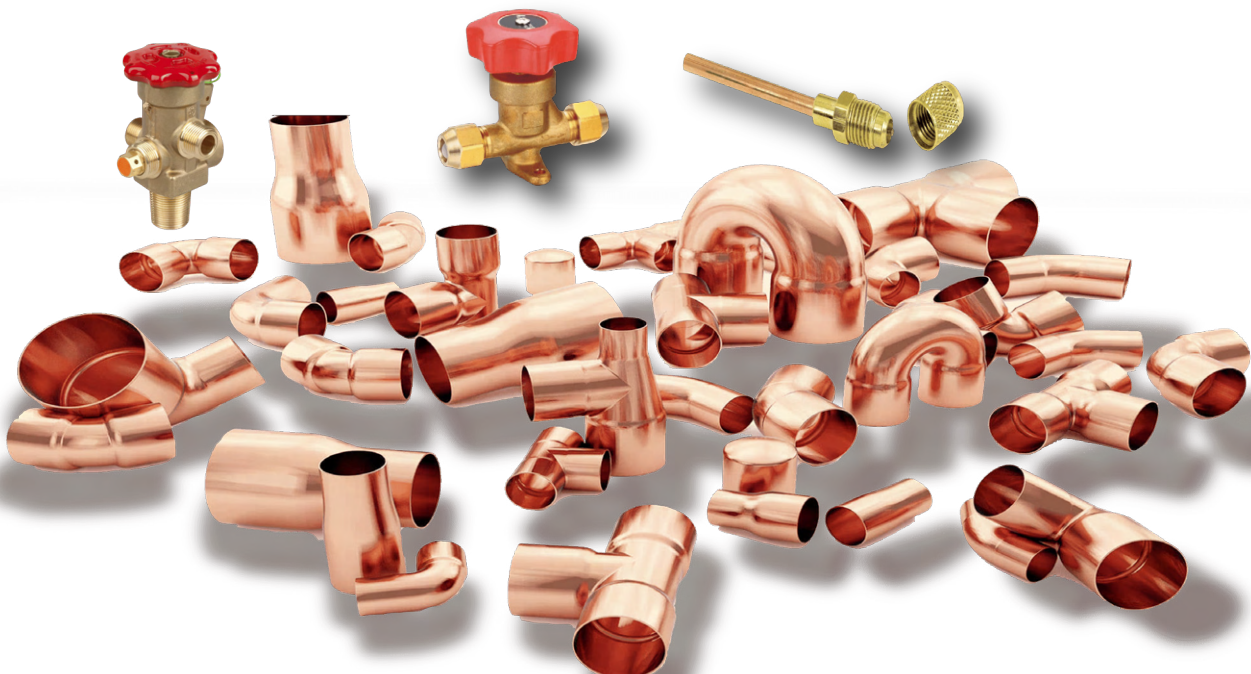

HVAC

Plumbing

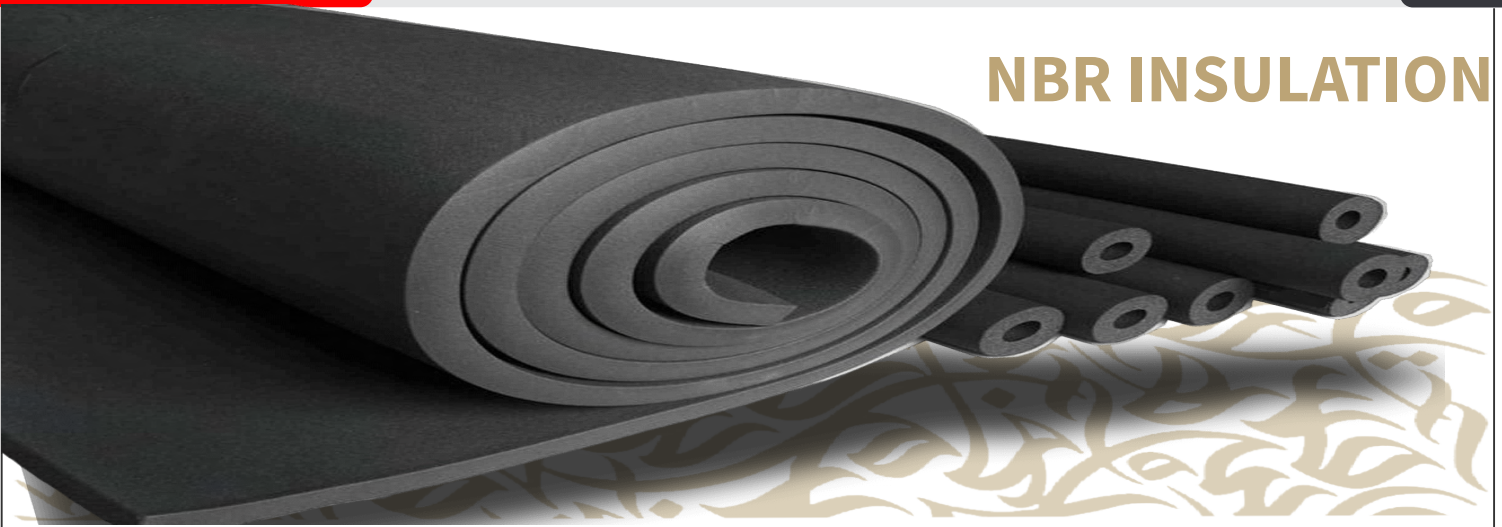

Fire Fighting

These fittings offer a copper joining performance that is second only to brazing and is compatible with the leading press tools in the market, making them ideal for HVACR applications.

NBR INSULATION

As authorized distributors of AEROFOAM insulation solutions and GoFLEX flexible elastomeric thermal insulation, We strive to offer premium-quality rubber insulation that excel in both thermal and acoustic. Our solutions are composed of closed-cell foam materials with low thermal conductivity, which results in an excellent R-value, making them a perfect fit for applications requiring high energy efficiency. Our product's elasticity and flexibility enable them to endure repeated thermal cycling, thereby providing outstanding durability and longevity. Our solutions are also designed to withstand harsh weather conditions, including ultraviolet (UV) radiation, moisture, and ozone exposure, making them a reliable choice for industrial, commercial, and residential applications.

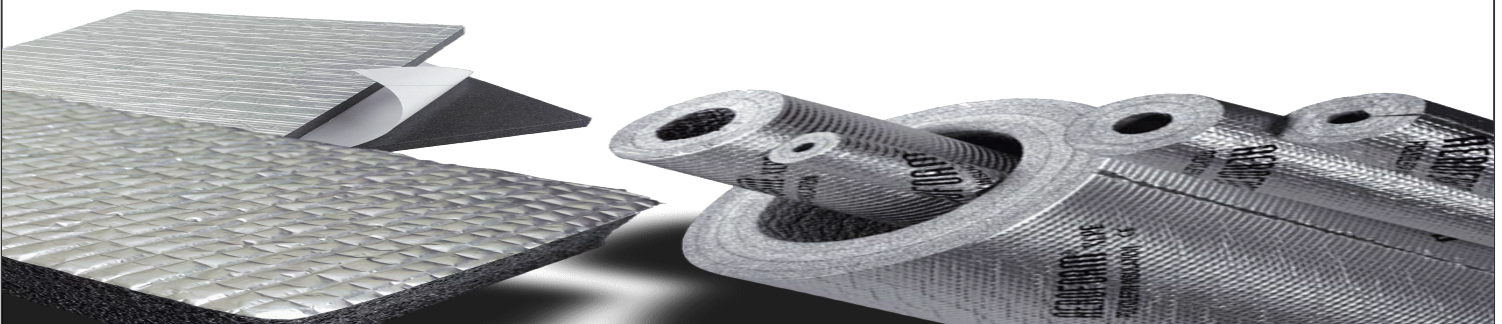

AEROFOAM[®]

GoFlex

FLEXIBLE ELASTOMERIC THERMAL INSULATION

We also offer XLPE insulation, which is renowned for its excellent thermal properties. XLPE is hydronic tubing made of cross-linked polyethylene plastic and has a three-dimensional bond within the plastic. The insulation is a thermoset, zero-halogen insulation that provides flame-retardant properties. As authorized distributors of AEROFOAM insulation solutions, our XLPE insulation products are of the highest quality and provide superior insulation for a wide range of applications.

XLPE INSULATION

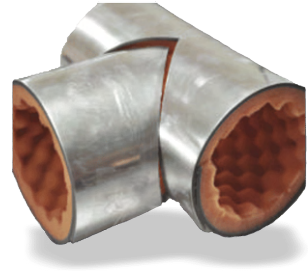

ACOUSTIC SOLUTIONS

It is crucial to prioritize sound isolation and the use of sound-absorbing materials. Some available options include **AeroSound® SLM**, **AeroSound® SL+**, **AeroSound® HD**, **AeroSound® HDM**, **AeroSound® ALM**, and **AeroSound® RFM**, which can contribute to a more comfortable acoustic environment.

Calm and Quiet Environment

AeroSound® Duct Liner is an environmentally friendly and hygienic product designed to improve sound absorption and indoor air quality. It offers excellent noise reduction, is safe to handle and install, and resists mold and cleaning chemicals. The product range includes various options such as **LX**, **LXF**, **LN**, and **Elastomeric Sound Absorber (ESA)**.

AeroSound® SF (Silent Floor) underlay is a cross linked closed cell polyolefin foam and **ESF** is flexible **Elastomeric Rubber Foam** with medium density underlay for all floating floor applications.

AeroSound offers top-notch rubber gym and sports flooring to enhance your workout. **AeroSound® HIIT** (Rubber Flooring Rolls) is made of high-quality rubber and EPDM rubber sheet color granules, perfect for intense indoor and outdoor activities. Also **AeroSound® Puzzle** (Rubber Interlock Tiles), and **AeroSound® Dynamic** (SBR Rubber Tiles) are available at your need.

AEROSOUND®
www.aerofoam.ae

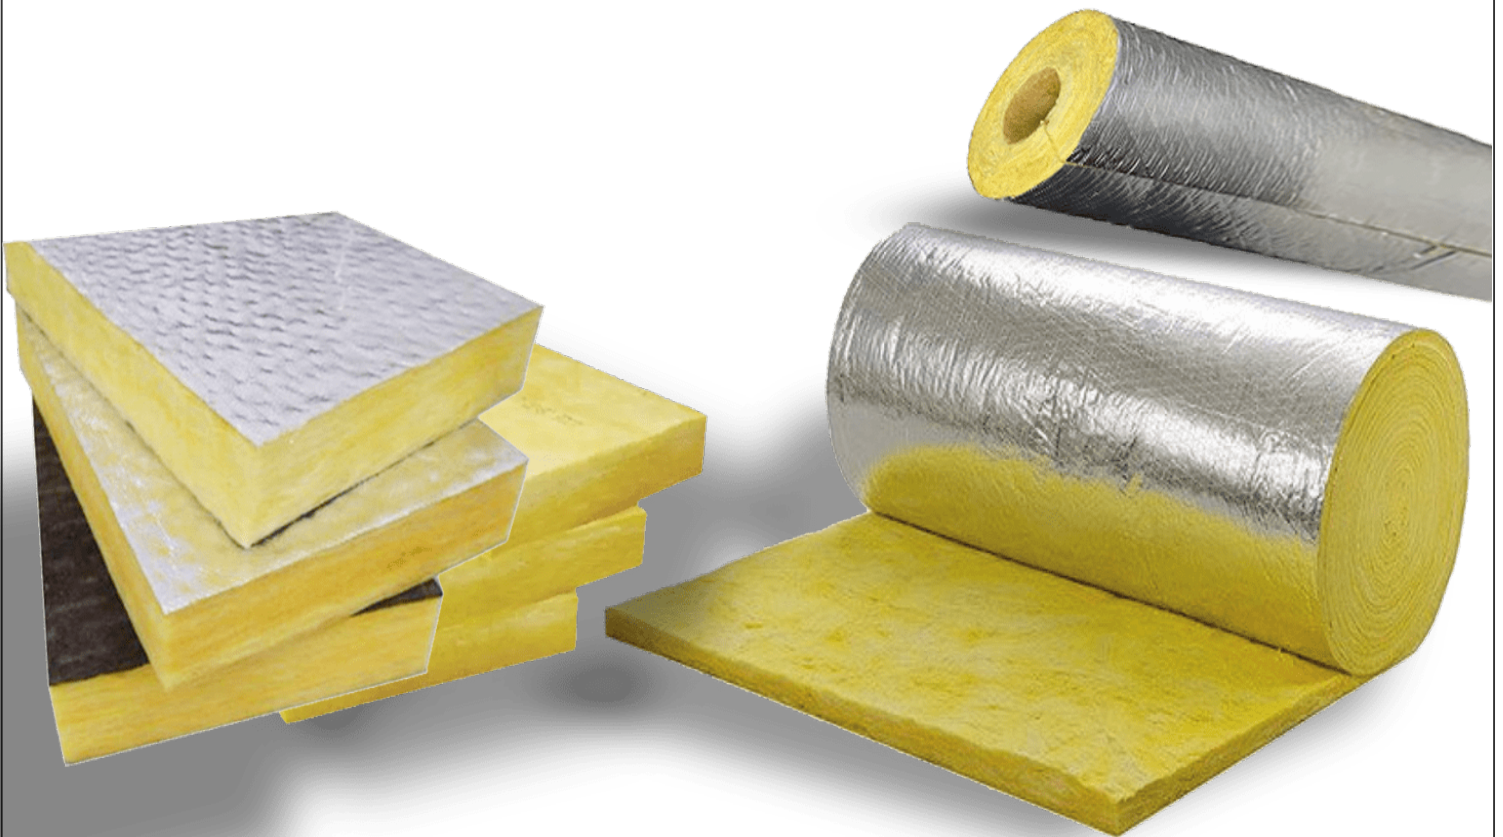

We also offer premier rock wool insulation solutions. Our rock wool insulation products are meticulously engineered to withstand extreme temperatures and deliver exceptional thermal insulation performance, making them an ideal fit for demanding industrial and commercial applications.

insulation solutions, clients can rest assured that they are receiving top-quality products that deliver unparalleled performance, reliability, and longevity

GLASS WOOL & ROCK WOOL

Our products are crafted from mineral wool fibers that offer outstanding resistance to fire, sound, and moisture, ensuring a high degree of safety and sustainability. With our rock wool insulation solutions, clients can rest assured that they are receiving top-quality products that deliver unparalleled performance, reliability, and longevity

PRE-INSULATED DUCT

Al Rawabet is delighted to be the distributor of two well-respected and dependable brands in the field of ducting; Alpha PIR Panel Duct and Easy Duct.

ALPHA air duct system and Easy Duct are both high-performance, lightweight pre-insulated Polyisocyanurate solution for air distribution. Fabricated in sections up to 4 meters (13 feet) in length, our duct system offers significant cost and energy savings when compared to traditional metal duct systems. Furthermore, they are fully compatible with standard metal control dampers, fire dampers, access doors, and supporting systems typically used in conventional metal ducts

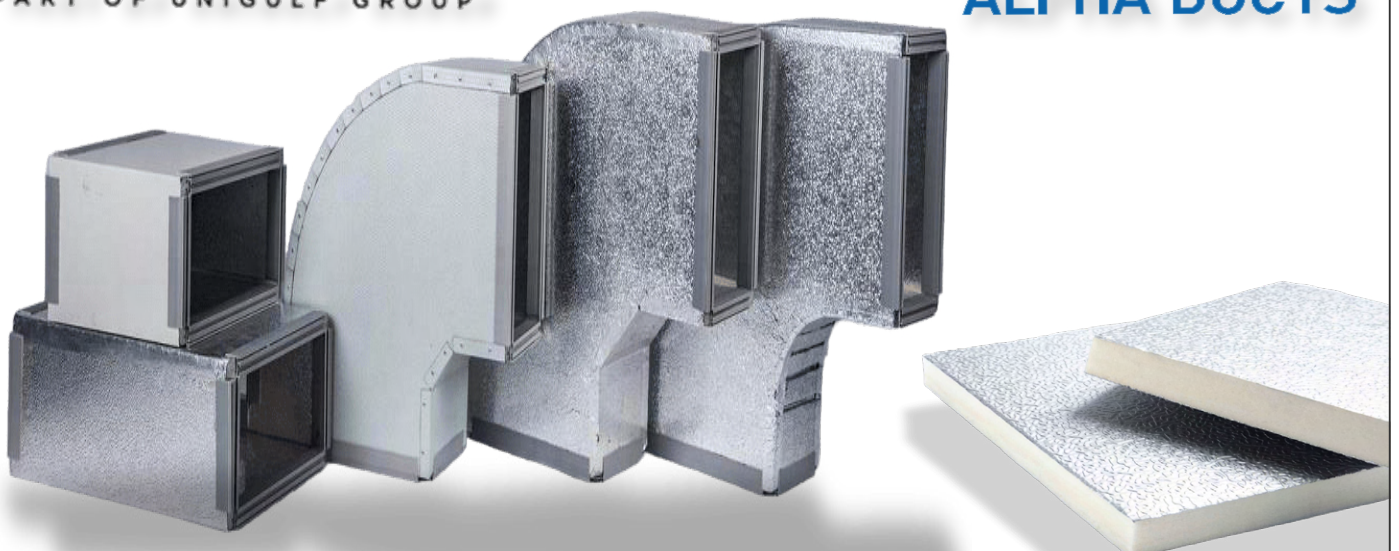

These polyurethane foam panels comes with 44 ± 2 kg/m³ density, 20 mm thickness, coated on both sides with 80-micron thick aluminum foil.

The aluminum foil is embossed on both sides and coupled with a 2 g/m² layer of corrosion-resistant polyester paint.

This panel is especially suited for use in air-conditioning and heating system installations. 48 m² pack. Ducting accessories are designed to make duct installation and maintenance easier and more efficient

DUCT SYSTEM**
PART OF UNIGULF GROUP

ALPHA DUCTS

FLEXIBLE DUCT

Al Rawabet is a leading provider of high-quality flexible ducts and accessories for a wide range of HVAC applications. Our ducts are made from flexible PVC or polyurethane, designed to fit into tight and awkward spaces, improving airflow and making installation easier

We offer customized solutions to meet the unique needs of each project, with a team of experts dedicated to working closely with clients to determine the best type and size of flexible duct for their specific requirements

Our products are versatile, cost-effective, and available in various sizes and lengths suitable for both residential and commercial applications

As a distributor of AeroDuct accessories, we are confident in the quality and reliability of our flexible duct and are dedicated to providing exceptional service and support to our valued customers

AERODUCT®

FLEXIBLE DUCT CONNECTOR

UL Classified

Dual Lock Grip

AERODUCT®

We take immense contentment in providing exceptional HVAC products that are crafted with the highest degree of quality. Our Flexible Duct Connector is constructed with specially chosen fabric that suits the typical requirements of each installation. This fabric is then fastened to two metal strips to create an airtight seal. As a distributor of the trusted Hira-AeroDuct brand, we stand behind the quality of our products and are committed to providing our customers with the best possible solutions for their HVAC needs.

DUCT ACCESSORIES

DIAMOND TAPES™

 **KLIMA**

We're pleased to provide a selection of duct accessories from leading brands such as Aeroduct, Klima, Hira Diamond tapes, and the Hira Walraven pipe support system

Klima is another trusted name in the world of ducting accessories. Their product line includes a variety of products designed to make duct installation and maintenance easier, including duct Sealant and duct glue

No matter what your ducting needs may be, we're confident that we have the right accessories for the job. From Aeroduct to Klima to Easy duct systems, we carry a wide range of products from top brands to help you get the job done right. Check out our selection of ducting accessories today and see for yourself why so many contractors and HVAC professionals trust us for their ducting needs

FLEXIBLE DUCT CONNECTOR

Duct tape is indispensable for ensuring airtight and leak-proof seals in heating, ventilation, and air conditioning systems. Our products possess excellent adhesive properties, withstand extreme temperatures and humidity, and are user-friendly. Experience the high-quality tapes offered by Diamond Tape and Airmaster Equipment Emirates through our reliable sales distribution services. We offer a variety of tapes, including Single Sided NBR Foam Tape, Foam Tape, PVC Tapes in both white and black, Aluminum Foil Tape, and Alupet Tape

Airmaster Equipments Emirates
Leaders known better for handling air

DIAMOND TAPES™

INDUSTRIAL FANS

We specialize in top-notch HVAC Centrifugal Fans, including those designed for high-temperature applications. As the sole distributor of GREEN BREEZE Europe, we offer access to some of the most reliable and efficient fans in the industry

We also distribute Dynair Industrial Ventilation products that are renowned for their quality and durability.

Using advanced Fan Selection Software Tool, we guarantee optimal efficiency, durability, and performance in our fan selection process.

AXIAL & INLINE FANS

We are the exclusive distributor of GREEN BREEZE, a top-quality brand of HVAC Axial and Inline Fans from Portugal. Our partnership with GREEN BREEZE allows us to offer a wide range of high-performance ventilation solutions to our customers

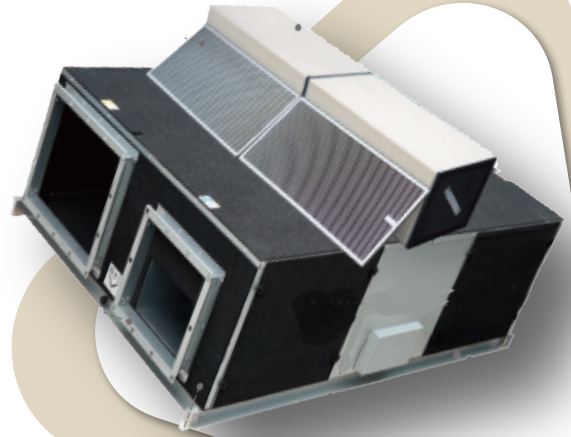

We also distribute other leading brands in the ventilation industry such as VENTS and ERA GROUP

HEAT RECOVERY

GREENBREEZE-Europe heat recovery is designed to recover heat energy from sources such as exhaust air, process heat, and waste heat, and repurpose it for use in other applications. This is a highly efficient way of reducing energy costs and minimizing the environmental impact of industrial processes.

This not only reduces the amount of energy required to run the industrial process but also reduces the greenhouse gas emissions that are released into the atmosphere. This innovative technology is a testament to the importance of sustainable practices in modern industry and is sure to play an important role in shaping the future of industrial processes

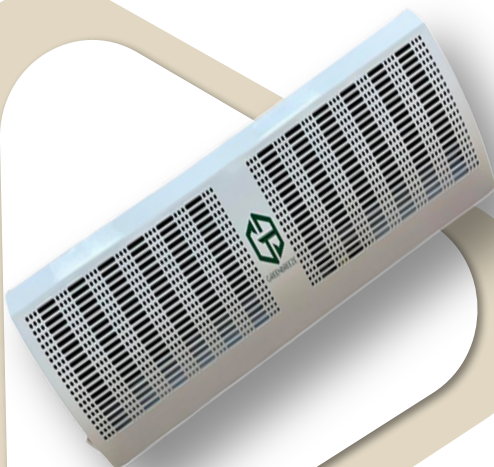

AIR CURTAINS

GREENBREEZE Air Curtain is designed to fit any entrance size. It creates a powerful air barrier that blocks out dust, smoke, insects, and other pollutants from entering the building while preventing energy loss. It is ideal for use in commercial, industrial, and residential settings, including shopping malls, hospitals, hotels, airports, and more.

As an exclusive sales agent of GREENBREEZE, you can be assured of the highest quality of service, technical support, and after-sales care

AIR OUTLETS

We offer a wide range of HVAC air outlets including Grilles, Slot & Diffusers, Louver, and Damper from the top brands AIRMASTER and VENTECH. Our products are designed to deliver superior performance, energy efficiency, and maximum comfort for your indoor environment. As a trusted supplier, we are committed to providing high-quality solutions that meet the needs of our customers with utmost diligence and excellence

HUMIDIFIER

Steam humidifiers (isothermal)

Low-energy consumption adiabatic humidifiers

Our humidifiers, offer precise and reliable humidity control for various applications. They are designed with advanced features, such as accurate control systems and energy-efficient operation, ensuring optimal performance while minimizing energy consumption.

we offer devices that prioritize hygiene and water quality, incorporating self-cleaning mechanisms, water treatment options, and automatic drainage to maintain clean and healthy steam output. They are designed for seamless integration with building automation systems and offer customization options to meet specific requirements.

CAREL

DEHUMIDIFIER

Portable Dehumidifier

Domestic and Factory Dehumidifier

Our portable dehumidifiers offer convenience and efficiency, allowing you to effectively control humidity levels in various spaces, whether it's a small room or even a larger industrial area. With advanced features and compact designs, our dehumidifiers are easy to use and transport. Additionally, our domestic and factory dehumidifiers are specifically designed to tackle moisture-related issues in homes and industrial settings. These powerful units effectively extract excess moisture from the air, preventing mold growth, reducing dampness, and improving overall air quality.

PRE-INSULATED PIPES

The pre-insulated pipes are a state-of-the-art solution for transporting hot and chilled fluids for a range of industries. The pipes are composed of high-density polyethylene, a highly durable and thermally stable material that can withstand extreme temperatures and harsh environmental conditions, minimizes heat transfer, and reduces thermal losses.

The strong jointing ensures leak-free connections. The insulation layer is also protected by a robust outer casing, that provides additional mechanical strength and protection against external factors.

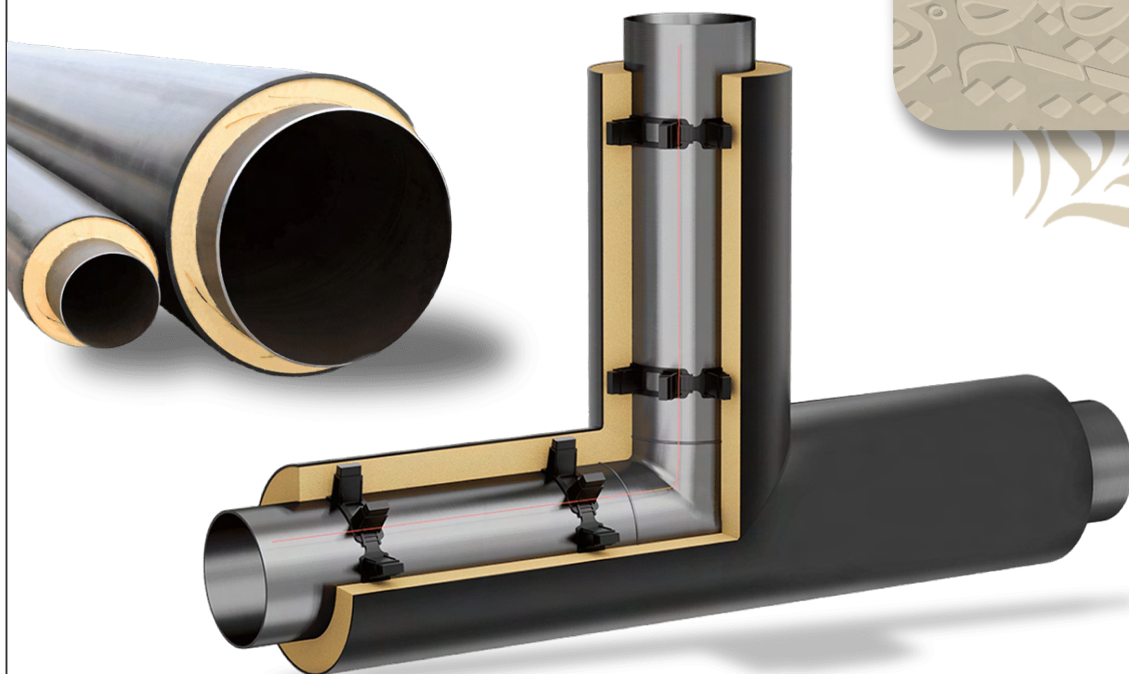

We facilitate pre-insulated pipes designed to meet the most stringent industry standards, including ASTM, EN, and ISO

المرتب

Streamline your projects with our pre-insulated pipes - the perfect fusion of durability and efficiency
